WHERE TO EAT AND DRINK (pre-book):
Restaurant Rundhaug Gjestegård
Cafe Basecamp Snowman

SNOWSHOEING WITH GUIDE

When winter arrives in Arctic and we start to get snow, we love to go snowshoeing on the local trails or without trails near the hotel Rundhaug Gjestegård or up in the mountain Målselv Fjellandsby. In just a few hours you can get a great workout and enjoy the solitude of the winter woods. One of the things we like best is that snowshoes are highly maneuverable, allowing you to go where the cross-country skiers cannot go through thickly-wooded and steep terrain.

Winter snow via snowshoes is the experience of the quiet and serenity of the snow-covered landscape. Snowshoeing is one of the fastest growing winter sports because if you can walk, you can snowshoe. You can start today, and have fun immediately!

Your guide will make sure that you are safe in the wilderness. The trip last for a couple of hours through different terrain, with small breaks and guide instructions.

If you chose a trip at night you have a great chance to see the Northern light.
